meine lieben,

I will better in
English schreiben, da ich kaum
noch mehr in Deutsch! Ich hoffe
dass du es gut lesen. Ich
kann auch - aber nicht sprechen
und schreiben! —

because I cannot tell you how
from you, as the news of the
disasters in Chile are daily coming
on the radio, & every day worse.
Knowing that your address was
once Concepcion, & is now Santiago,
I am a little less worried, but
I hope you will write me
a letter or postcard straight
away, as I do want to hear
what you are alright! also
please let me know if you
need any help in any way. I
has been a terrifying experience
I am sure, I only keep hoping

that all is well with you!!
So please write me soon!!

We are all well, & our little
daughter is progressing beautifully.
We have clearly joys & troubles. The
her, it is lovely to have a baby.

in Natanya two weeks ago, while
Yvonne looked after our children.
It was the first time in ten years
we were alone on holiday - like a
second honeymoon! It was hard getting
back to my long day's work. What time
