Dear Miguel & Sylvia

Thank you very much for your Channuka greetings, which I reiprocate most warmly.

I have noted that you will split your life between Santiago and Washington, but you have given me no telephone or fax numbers nor your e-mail in tiehr Santiago or Washington.

The reason I need these is to keep in contact with you. I am hoping to come to the USA - for the first time in four years - sometime in March, but I would like to choose a priod when my friends are in town in Stanford, CT, New York and Washington DC. I have no research tasks this time, so it will be purely a personal visit. So please let me know how and where I can contact you.

With all good wishes and fond regards, also to your dear mother and John,

*as ever
Herb*
