Mydearest Uncle Ludwig and Auntie Annemarie,

I have written to you three times in the last year, and not had one reply, and I am quite worried about it, thinking that maybe my letters have not arrived. We even wrote one to the lawyer to ask if he received our letter of nearly a year ago, and after waiting now almost two months we again have had no reply, so we are really worried, as you can imagine. We do hope that everything is alright with you all. Here are all very well, our children are growing up very fast, the youngest is already four years old, and my eldest girl is almost fourteen and my eldest son has Barmitzvah in September 19, this year. You are very seriously invited, I want you to know. If you want you can stay with us, in my daughters bedroom, as she can stay with friends next door. You intend to come one day so maybe this would be the right time.

I have been waiting for a letter so long to tell me all about the new new members of the Kychenthal family, and there has been nothing. It is very dissappointing and also worrying.

You know I am on the Israel executive of Wize, and would like to know more about your new in law, as I sit on the Executive e with a former President of Chile Wize, a Sarah Levine, maybe you know her. We have adopted a morrocan meshav here, to give us young women some goal here to work for as a group cut off from the town and its specific work of helping women and children of immigrant families, and at chanuka and now at purim, we organised a joint party at their place and it was very successful. The first time they knew only to receive and the next time they gave quite a contribution to the performances, and even their own cakes, and drink. so that alone was worth the effort, they learnt to want to stand on their ownfeet. It was a personal victory for me because I initiated the idea and was not short of opposition as you can imagine.

Incase you did not get my letter telling you to where to send the restitution money, as I have not yet received it, this is the adress:

Chanita Annelise Rodney  
Bank Leumi L'Israel  
Rehovot.  
Israel.

I will not write any more now, until I hear from you again and please write quickly, as I am really worried about you all.
